Here is your report for SEO. In this report, we cover **on page SEO**, **OFF SEO** and **Technical SEO** and here I found some issue on that Mobile View and accessibility is not good for costumer so we have to optimize your website for mobile user.

As you see above that in **Technical SEO** there are some issues that we have to solve like we have to

use 301 error on your website, we have to reduce CSS Files because these files increase loading time of website Reduce Java Script Files, they act same as CSS file
